TRENDS

LUX LOUNGE

As society adjusts lifestyle for Social Distancing, style has taken more of a focus towards loungewear and relaxation while still looking stylish and professional.

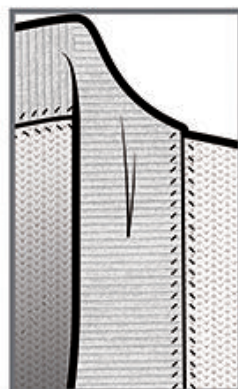

"BRUNCH-ING"

"Brunch-ing" and other semi-luxurious events have grown popular with social groups. As society begins to re-open fancy brunches, cocktail hours, and resident parties will be for everyone.

CUT-FOR-ALL

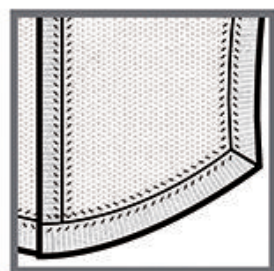

It is important to create styles that all body types can enjoy and feel positive wearing. With adjustable detailing and shape in mind, these clothes will fit many differing silhouettes easily.

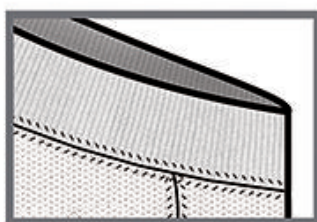

KNIT ACCENT

Utilizing oversized ribs as trims, this style allows for unique and unseen designs with a beautiful & comfortable feel. This creates a textural contrast while still staying cohesive
